PROFESSIONAL SUMMARY

Team Leader and Flutter Developer with diverse experience in mobile application development, UI/UX design, and team leadership. Skilled in organizing team workflows, assigning tasks effectively, monitoring project progress, and coordinating between team members to ensure efficient execution and high-quality results. Combines technical expertise with creative vision to deliver modern, practical, well-structured, and visually engaging digital solutions.

PROFESSIONAL EXPERIENCE

Flutter Application Development

- Develop high-quality mobile applications using Flutter with a strong focus on practical, scalable, and user-centered solutions.
- Transform concepts, requirements, and UI designs into smooth, responsive, and well-structured mobile interfaces.
- Maintain clean application structure, design consistency, performance awareness, and seamless user experiences across different devices and screen sizes.

UI/UX Design

- Design modern, intuitive, and visually engaging interfaces that balance aesthetics with functionality.
- Create clear user flows, organize visual elements, select effective color systems, and improve the overall user journey.
- Build interface concepts that are easy to use, visually consistent, and optimized for efficient interaction across applications and websites.

Team Leadership and Workflow Management

- Lead teams and manage project workflows through effective task distribution, progress tracking, and clear communication.
- Organize work processes, improve team productivity, support deadline commitment, and ensure project outcomes meet quality standards and business objectives.
- Create a collaborative and structured work environment that helps teams deliver efficient, reliable, and well-coordinated results.
